Google Search Results SEO v AdWords

3. Google's Share of UK Digital Search

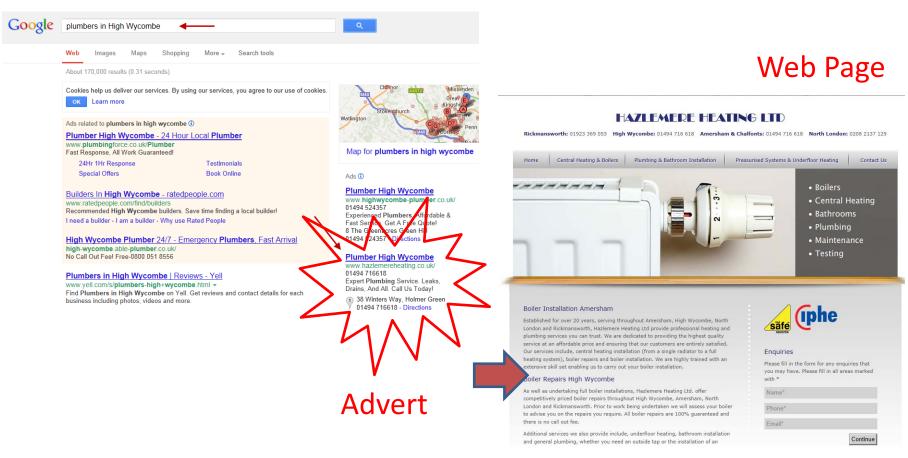

89.2% of the UK's online searches March 2014 – Experian

"There are 9 times more searches conducted on Google than on all of the other search engines combined."

UK web users made 2.7 billion visits to search engines during December 2012

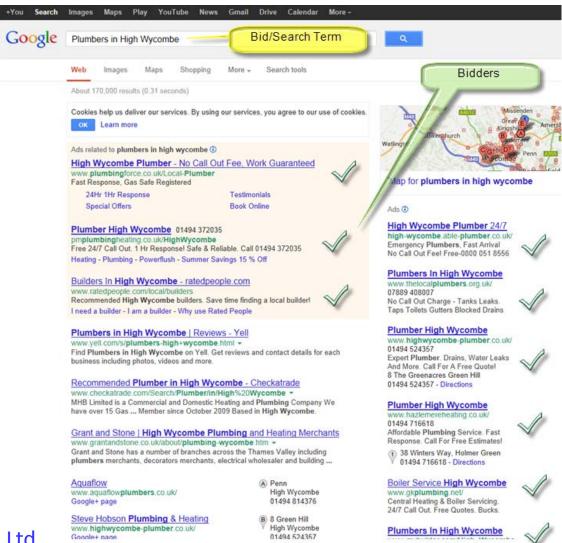

4. How AdWords Works

Search Query

4. How AdWords Works

Advertisers bid against each other on keywords, to expose an advert, linked to a website

4. How AdWords Works

What can you target?

Maidenhead, England, United Kingdom - city	

Enhanced Campaigns

"People are constantly connected and moving from one device to another to communicate, shop and stay entertained"

"new devices — PCs, laptops, tablets, smartphones, hybrid devices, mini-tablets, televisions, and more."

Google

Enhanced Campaigns

1. Powerful marketing tools for the multi-device world

-> manage bids for your devices, locations, time of day

A breakfast cafe wants to reach people nearby searching for "coffee" or "breakfast" on a smartphone. They can bid 25% higher for people searching a half-mile away, 20% lower for searches after 11am, and 50% higher for smartphone searches.

Enhanced Campaigns

2. Smarter ads optimized for varying user contexts

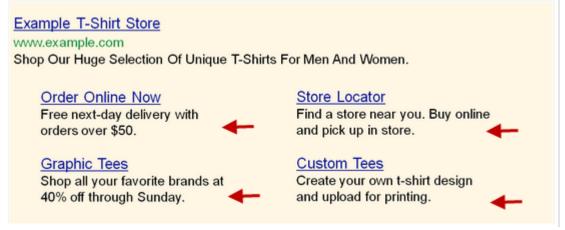

-> People on the go or near your store may be looking for different things than someone sitting at their desk

A national retailer with both physical locations and a website can show ads with click-to-call and location extensions for people searching on their smartphones, while showing an ad for their e-commerce website to people searching on a PC.
